Energized Guyz

February 28th—FACS Chapel at 2:00pm

K—5th grade students

Duke Energy and The National Theatre for children have developed a customized curriculum that teaches core educational concepts about energy, resources, how and why students can use energy wisely. The centerpiece of the curriculum is a live theatrical production delivered by professional actors. The program called, Energized Guyz, features a cast of zany characters including villain Dr. Maybe, energy wise guys Cape Code and Tech Guy, and our energy hero extraordinaire, Nikki Neutron.

Help our School win \$1000

As part of the Energized Guyz program, Duke Energy is providing free energy efficiency kits to every household. These kits contain several items to help you conserve energy at home and to help save money on your energy bill. A contest prize of \$1000 for the school that signs up for the most kits (based on percentage of our school's population). There is also a \$5000 family prize—anyone who signs up for a kit is eligible for that prize. MyEnergyKit.org or call 1-855-38MYKIT

FACS Heritage Day

Friday, March 23rd

It's a time to celebrate our heritages.

We will get to enjoy and focus on the academic and "celebration" part of our heritages. Watch the countries come alive with food, entertainment, music, etc.

This is a school wide event and we are so excited about it.

Plan to become a part of our first ever Heritage Day.
